OUR MISSION

To Strengthen and Empower Vermont Manufacturers

VERMONT MANUFACTURING EXTENSION CENTER (VMEC) has operated statewide as a not-for-profit Center since 1995, collaborating with public and private partners in business, government and education to bring world-class assistance and resources to Vermont manufacturers and other enterprises of all sizes, helping them overcome ever-changing challenges, become more competitive and grow their profitability. A valuable local Resource and Trusted Advisor, VMEC has a 25-year track record of achieving measured results and quantified impact for its clients, with a high average Return on Investment (ROI) reported by clients as a direct result of VMEC assistance. The VMEC Team is Vermont’s go-to trusted resource for expertise in manufacturing consulting, coaching, hands-on implementation, continuing support, and training and education for leaders and workers. We help clients to innovate, plan, perform and accelerate profitable growth in ways that drive increasing enterprise value. The VMEC Team provides proven systems and solutions focused on Strategies, Processes, Products, Technologies and People.

VMEC IMPACTS
Partial Impact of VMEC in Vermont

- Jobs created that otherwise would not have existed: 153* / Last three years: 331
- Jobs retained: 298* / Last three years: 815
- Total jobs created – direct, indirect and induced: 1,709**
  These jobs paid a total of $66.5 million** in employer wages and benefits
- Client investment in modernization: $43,088,000* / Last three years: $57,076,000
- Cost savings: $18,720,000* / Last three years: $48,651,000
- Increased and retained sales: $63,901,000* / Last three years: $200,603,000
- Additional labor compensation: $106,405,000**
- Total value added (gross state product): $129,392,000**

*This data reflects the results of VMEC client projects from July 2018 through June 2019. The data is from formal surveys conducted by a third party under contract to the National Institute of Standards and Technology (NIST), Hollings Manufacturing Extension Partnership (MEP). Clients surveyed represent 57% of all Vermont clients served by VMEC during the period. **Client-reported impact as a direct result of VMEC assistance. **Results of input-output analysis (IMPLAN modeling) based on results from VMEC clients surveyed.

Multiplier Impacts of Manufacturing

Economic Multiplier
Every $1 in manufactured goods generates an estimated $1.82 worth of additional economic activity, the highest of any other economic sector.

Employment Multiplier
Each manufacturing job supports an additional four jobs elsewhere.

CLIENT PROFILE: VERMONT PRECISION TOOLS

“[I view VMEC as one of our top business and training resources. Leveraging their services and training opportunities has changed our company for the better.” —MONICA GREENE, PRESIDENT, VERMONT PRECISION TOOLS, INC.

Lean Management, Increased Profitability

From its headquarters in Swanton, Vt., Vermont Precision Tools has been manufacturing cutting tool blanks for various metalworking industries since 1968. The company’s relationship with VMEC began nearly 20 years ago, and over the years they’ve taken advantage of a variety of trainings in Lean, Leadership Building, and Innovation Engineering topics.

Recently, when the senior management team found that VPT’s profitability wasn’t keeping pace with increased revenues, they engaged VMEC to conduct an assessment and, ultimately, help them implement a Lean Management System. “VMEC has always supported us, from the classroom to implementation on the manufacturing floor,” said President Monica Greene. VMEC trained both the Executive and Senior Management teams to develop and deploy a Lean Management System to support company growth.

CLIENT PROFILE: TROW & HOLDEN COMPANY

Focus on Quality Management
Trow & Holden has been a leader in stoneworking and masonry tools since 1890. The Barre-based manufacturer has a long-standing relationship with VMEC, so when their leadership team decided to implement a Quality Management System (QMS), they turned to VMEC for support. “Having worked with VMEC on several occasions in the past, we knew their approach and offerings would work well for us,” said President Gina Akley.

The company took part in the ISO 9001:2015 Collaborative Program, which allows small- and medium-size companies to prepare for certification with the support of a team of experts. The program included six workshops with other companies, plus another six on-site days to implement the QMS and prepare for the registration audit.

“VMEC offers such a wide variety of courses and resources that they really have something for everyone.”
– GINA AKLEY, PRESIDENT, TROW & HOLDEN COMPANY

HOW VMEC ASSISTS ENTERPRISES

Operational Excellence and Continuous Improvement
Ongoing continuous improvement, cost reduction strategies and operational excellence remain among the top needs we hear from manufacturers. VMEC can recommend and support systems and solutions to identify and systematically drive out waste in all of its forms, transform office/administrative and plant processes, solve problems, lower costs, improve quality, increase customer and employee satisfaction, manage talent and train employees, and grow a culture of continuous improvement.

Resources for Vermont Manufacturers
Manufacturers need quick access to information and resources for wide-ranging needs. The VMEC team is comprised of a highly experienced group of professionals with many years of combined experience in all aspects of manufacturing and enterprise growth.

We have ready access and established relationships with State of Vermont and private resources, plus MEP National Network™ consultants and numerous other resources across the nation through VMEC’s longstanding affiliation with federal stakeholder partner, the Hollings National Institute of Standards & Technology (NIST) Manufacturing Extension Partnership (MEP).

Innovation, Growth and Technology Acceleration
Vermont Manufacturers are asking for help to develop new products and increase sales to new markets. Spanning the innovation continuum, VMEC can help plan, accelerate and implement strategies to integrate advanced manufacturing technologies into profitable new Products & Services, Processes and Business Models for systemic excellence and sustainable growth. VMEC is a licensed member of the growing global Innovation Engineering Network™ of practitioners.

$60K Investment in new products or processes
$100K Investment in plant and equipment

PROJECT IMPACTS
P.G. Adams, Inc., is known for some of the largest metal forming equipment in the Northeastern United States. The South Burlington manufacturer has been fabricating truck frames for the heavy duty trucking industry since 1968.

In recent years, P.G. Adams made investments in equipment to increase manufacturing capabilities. With this extra capacity, the company sought help from VMEC to boost revenues and improve operations. The goal: handle the added volume without increasing costs, compromising quality or increasing lead times.

VMEC has provided ongoing consulting services to P.G. Adams in everything from marketing to front office process improvement to workplace organization. As a result, the company has increased sales while maintaining quality and shop lead times.

**VMEC Impact on Vermont’s Economy**

Includes the direct client impact reported by clients via third-party survey, the indirect impact generated when clients’ firms increase their purchases from suppliers, and the induced impact caused by increased household expenditures generated by direct and indirect effects. *Reported impacts are modeled using IMPLAN 3.1 Software and Vermont 2016 State data package.*

**Challenges to Manufacturing Growth**

The five highest-ranking strategic challenges reported by VMEC clients include the following (based on client surveys completed October 2018-September 2019 by an independent third party under contract to NIST MEP):

- **65%** → Employee Recruitment and Retention
- **61%** → Continuous Improvement and Cost Reduction
- **46%** → Growth Opportunities
- **44%** → Product Innovation and Development
- **23%** → Managing Partners and Suppliers
